## inServ Worldwide
*Senior Interactive Developer*                          January 2011 ~ Present

While working at inServ, I have had the privilege to lead the development of numerous websites, web based mobile application, iPad sales detailing aids, Email marketing campaigns, CMS based intranet sites, and many custom database backed micro sites. Some of the clients I have worked with include Mylan, Eli Lilly, Endo Pharmaceuticals, i3, Ignite, Palio, Inventiv Health, Harvest Tech, Avanir Pharmaceuticals, and Amylin Pharmaceuticals to name a few.

- Develop Web sites using HTML5/CSS3 and jQuery/javascript
- Develop web based mobile applications using jQuery Mobile
- Setup and implement digital standards and procedures for web based development
- Mentor junior level developers
- Manage SVN repositories for inServ digital work using Track/SVN and Assembla
- Setup LAMP based web hosting environments for clients
- Interview potential developer resources and make recommendations for staffing

## Affiliated Computer Services
*Print Operations Lead Technician/IT Support*        October 2007 ~ December 2010

- Perform hardware, software, network upgrades/installations for the Ohio Child Support Payment Center.
- Responsible for implementing and maintaining system security and configurations of 6 company servers
- Provide IT support, software and hardware configuration for a staff of 50 end-users.
- Manage the completion of daily physical disbursements to Child Support recipients.
- Develop and maintain supply, sortware vendor relationships.
- Responsible for new site/contract implementation to include setting up a new check printing facility, network of servers and program scripted automated tasks using perl and batch scripts.
- Maintain up to date procedural documents for all print systems/servers and print applications
- Responsible for document design and postscript development for child support letters and checks.

## Freelance Web Developer/Server Administrator
*Freelancer*                                        December 2006 ~ Present

- Design Websites from concept to coding using photoshop and a text editor.
- Manage and setup web hosting servers using LAMP and LEMP configurations.
- Integrate designs into PHP base CMS's like Wordpress, WHMCS, ClientExec, Magento, Joomla, Drupal, modX, Zencart, Open Cart, Open-Realty and Elgg.
- Manage and support a load balanced LAN/WAN and virtual server setup/security for a large national retailer of yarn and knitting supplies.
- Participate in open source project communities to better the software.
- Maintain client relationships and provide timely and accurate support and deliverables.

## Golden Gate Real Estate
*Realtor*                                         October 2005 ~ February 2008

- Manage real estate transactions for buyers and sellers of residential and commercial properties. Inform clients of their options and rights in reale state transactions. Advertise to generate leads and market current listings through print and digital media. Create and maintain personal marketing website. Manage database of clients and prospects.

## Pop's Ice Cream
*Owner*                                               July 2002 ~ July 2006

- Manage all aspects of the business from start-up to product development. Interview, hire and manage employees. Positively promote company through networking and creation of marketing materials. Manage and order inventory.

## The Roof Doctors Inc.
*Vice President*                                    May 1999 ~ October 2005

- Roofing/Siding sales. Perform estimates and repairs on roofs and siding. Represent the company with the best possible image. Create and maintain company website and customer database. Manage some print and all digital media for advertising and direct mailing.
